Summary

Enthusiastic Software Developer fresher with hands-on experience in JavaScript, Python, React, and REST APIs. Developed real-world projects including a browser-based JavaScript compiler and a full-stack Forex Algo Trading System. Strong foundation in frontend development, API integration, and problem-solving.

Skills

Programming Languages : Java, Python, JavaScript

Frontend Technologies : HTML5, CSS3, Bootstrap, React.js

Backend Technologies: Java, JDBC, Servlets, JSP, Spring Boot

Database: SQL

Tools : Git, GitHub, Firebase

Concepts: REST APIs, OOP, Full Stack Development

Experience

Mobile Application Developer Intern

DEc 2023 – Feb 2024

Biencaps Technologies, Pune

Tools Used: Excel, SQL

- Enhanced and enhanced 5+ Android application features using Java and Android Studio, improving UI responsiveness and performance.
- Integrated Firebase services for authentication and real-time data handling, supporting seamless user interaction.
- Improved application UI flows, reducing screen load time and improving overall usability.
- Collaborated with cross-functional team members to test, debug, and deploy application updates efficiently.

Projects

Forex Algo Trading System | *Python, React.js, REST APIs, HTML, CSS*

- Built and deployed a full-stack algorithmic trading dashboard to monitor and control automated Forex trading bots.
- Integrated REST APIs to fetch live Forex market data and trade history
- Built responsive frontend using React (Vite) and designed clean API architecture using FastAPI for backend services.
- Deployed frontend on Netlify and backend services on Render, enabling end-to-end live system accessibility.

🌐 Live Demo

🔗 Github Repo

JavaScript Compiler | *HTML, CSS, JavaScript*

- Designed and implemented a browser-based JavaScript compiler capable of executing code in real time directly within the browser.
- Engineered syntax error detection and console-based output rendering to improve debugging experience for users.
- Engineered secure in-browser execution without backend dependency, ensuring fast response and safe code evaluation.
- Strengthened understanding of JavaScript parsing, execution flow, and core language internals through hands-on implementation.

Awards & Certifications

- **java certificate :** Completed hands-on training covering object-oriented programming, core Java concepts, and application development fundamentals.
- **python certificate :** Gained practical experience in Python programming, data handling, and scripting for real-world problem solving.

Education

Bachelor of Engineering – Computer Engineering

Graduated: 2025

Smt. Kashibai Navale College of Engineering, Pune

CGPA: 8.0 / 10
